

ACTIVARMR®
PERSONAL PROTECTIVE GEAR

OIL REPELLENCE / ENHANCED GRIP

ACTIVARMR® PROTECTED FOR THE MOST RIGOROUS JOBS

- › Designed to enhance safety and productivity in the challenging environment of production services.
- › Grip equals safety. Poor grip when handling wet or oil-coated objects increases risk of injury.
- › Ansell Grip Technology™ delivers better grip under wet or oily conditions than comparable gloves on the market today.*
- › EN407 rated for contact heat (level 1) to provide 15 second safe contact at 100°C.

› ANSELL GRIP TECHNOLOGY™
97-100 GLOVE

AGT
ANSELL GRIP TECHNOLOGY™

 **ANSELL GRIP**
Ansell Grip Technology™

Ansell Grip Technology™ actively repels oils and other lubricants away from the pressure surface via microscopic channels in the coating.

Drilling Services:

- › Wireline services
- › Pressure pumping
- › Tool handling
- › Roustabouts

Production Services:

- › Pressure pumping
- › Artificial lift
- › Coil tubing services
- › Wireline services

As the global leader in hand protection, Ansell has developed the revolutionary Ansell Grip Technology™ providing 'Gecko-like' grip in adverse conditions that makes the difference between a sure hold and the risks resulting from loss of grip. This innovative new 'wet grip' technology acts similarly to the way that tire treads cut through water. The result is a significant contact area that remains dry and possesses almost the same grip as under fluid-free conditions.
