iMPactor II

Use your head figuratively - wear a helmet

Most of the industry in the world, looks for a sturdy companion to keep their safety on a high priority basis. iMPactor II is recommended for the kind of standard wearers look for. A friendly suspension - six textile bands interlocked with EAP™ technology ensures the best impact absorption capability possible, with the option of Pushloc™ or Twizloc™ adjustment systems. iMPactor™ II utilizes an extremely high impact lightweight ABS shell, blended with UV inhibitors. Reinforced side and back channeling provides added strength whilst accommodating a “recessed” gutter.

- ☉ Grip pads at the front row
- ☉ 2 option locks to fit tightly on head
- ☉ Universal facepiece slots
