

Light Duty

Oil-Repellent

High performance grip and oil repellence

- HyFlex® 11-920 glove provide high performance grip and oil repellence when working in oily environments
- ANSELL GRIP™ Technology contains microscopic channels in the glove coating to displace oil, resulting for a more secure grip when handling oily parts
- RIPEL™ Liquid Repellence Technology creates a liquid-impermeable layer to prevents oil or lubricant from making contact with the wearer's skin, enhancing hand health
- Seamless knit design provide an outstanding fit, comfort and dexterity to maximize all-day productivity

Industries

- Automotive & Transportation
- Building & Construction
- Machinery & Equipment
- Maintenance
- Metal Fabrication

Applications

- Light metal fabrication and part handling
- Engine and transmission assembly
- Handling small castings, gears and other abrasive edged parts
- Handling machined parts free from shavings and sharp edges
- Light stamping in oily environments
- Maintenance

Performance Profile

- Patent-pending ANSELL GRIP Technology coating wicks oil away from the hand in microscopic channels.
- Increases surface contact for enhanced grip and control.
- Prevents oil penetration and reduces the risk of dermatitis and liquid exposure.
- Multi-layer coating provides high abrasion resistance and increases wear life.
- Ergonomic, natural fit along with superior dry and oil grip for high productivity.
- Durable material is machine launderable for extended life and reduced replacement costs.
