GasAlertMicro5 Series

multi-gas detectors

Wear yellow. Work safe.

Instrument model differences			
	GasAlertMicro 5	GasAlertMicro 5 PID	GasAlertMicro 5 IR
Gases Detected	H_2S , CO, O ₂ , SO ₂ , PH ₃ , NH ₃ , NO ₂ , HCN, Cl ₂ , ClO ₂ , O ₃ and combustibles (LEL)	VOCs (PID), H ₂ S, CO, O ₂ , SO ₂ , PH ₃ , NH ₃ , NO ₂ , HCN, Cl ₂ , CIO ₂ , O ₃ and combustibles (LEL)	CO_2 (IR), $\text{H}_2\text{S},$ CO, $\text{O}_2,$ $\text{SO}_2,$ $\text{NH}_3,$ O_3 and combustibles (LEL)
Sensors	Plug-in, electrochemical cell (toxic and oxygen); catalytic (LEL)	Plug-in, electrochemical cell (toxic and oxygen); catalytic (LEL); Photoionization detector (PID) with 10.6 eV lamp for volatile organic compounds (VOCs)	Plug-in, electrochemical cell (toxic and oxygen); catalytic (LEL); infrared (IR) for carbon dioxide (CO ₂)
Typical battery life ¹			
AA Alkaline Rechargeable	20 hours 20 hours	15 hours 15 hours	15 hours 15 hours

¹Based on the run time of a 5-gas instrument in diffusion mode at +68°F/+20°C, other instrument configurations or environmental conditions may increase/decrease the battery life of your instrument.

Industrial Applications

Sensors

The GasAlertMicro 5 is available in three models: toxic/ electrochemical, PID (for VOCs) or IR (for CO₂). For more information about available sensor configurations, please contact BW Technologies by Honeywell.

Electrochemical and catalytic bead sensors available for:

H_2S	CO	O ₂
SO ₂	Cl ₂	CIO ₂
NH ₃	PH_3	HCN
NO ₂	O ₃	Combustibles (LEL)

Photoionization sensor available for volatile organic compounds (VOCs) detection.

Infrared (IR) gold series sensors available for carbon dioxide (CO₂) detection.

Note: Due to board and sensor configuration GasAlertMicro 5 models are not interchangeable (i.e. a PID sensor cannot be used in a IR configured unit).

Both the diffusion and pumped configurations are compatible with the MicroDock II automated bump test and calibration system

Standard features of BW products:

- Continuous LCD shows real-time gas concentrations
- Water-resistant
- · Automatic calibration procedure; compatible with BW MicroDock II automatic test and calibration station
- · Full function self-test of sensor, battery status, circuit integrity and audible/visual alarms on start up
- · Bright wide-angled visual alarm bars
- Built-in concussion-proof boot

Please see owner's manual for a complete listing of compatible batteries and codes. 		
Warranty	Full two year warranty including sensors (1 year NH3, Cl ₂ , O ₃ , ClO ₂ and PID lamp)		

Additional GasAlertMicro 5 Features:

- · Integral motorized pump option for remote sampling
- · Equipped with internal vibrating alarm for high noise areas
- Two power options: AA alkaline or rechargeable hot-swappable battery packs
- Multi-language support in English, French, German, Spanish and Portuguese

Options and Accessories

Belt holster

Collapsible sampling probe

Integral pump and Confined space kit battery charger
