

# HyFlex®

ADVANCED MECHANICAL PROTECTION

## 11-840

Extreme durability for extended wear in abrasive applications

LD

Light Duty

Multi-Purpose

## Up to 2X more durable than premium nitrile general purpose gloves

- A new standard for glove life in light duty applications
- Ansell FORTIX™ Abrasion Resistance Technology
  - Provides longer continuous wear times in abrasive environments
  - 20% more breathable vs standard safety gloves for cooler, drier hands
- Form-fitting liner offers a secure and comfortable fit to optimize worker performance

### Industries

- Aerospace
- Automotive
- Automotive OEM
- Electrical Machinery
- Fabricated Metal Products
- Transport Equipment / Trains & Boats

### Applications

- Assembly of small & medium parts
- Feeding lines
- General handling
- Raw material reception
- Screwing & unscrewing

### Performance Profile

- Advanced abrasion protection**  
 With tough, resilient FORTIX™ abrasion resistant nitrile patent pending foam, the 11-840 provides up to 2x the abrasion performance of other common lightweight, knitted-dipped gloves, for long-lasting handling in abrasive conditions.
- Comfortable, tailored fit**  
 The form-fitting 11-840 liner matches the natural contours of the hand to create a more comfortable wearing experience. It is tailored to create a more precise fit-at the base of the pinky finger, across the fingertips and through the palm for more dexterity.
- Performance versatility**  
 With its balance of robust abrasion performance, enhanced comfort and high dexterity, the 11-840 is an ideal lightweight multi-purpose solution.

### Key Features

- Thin FORTIX™ nitrile patent pending foam coating**  
 The 1.1mm coating provides an enhanced dry grip and lasts 2x longer than a standard coating. The high abrasion performance rating (EN 4, ANSI 5) sets a new standard for glove life in light duty applications.
- Breathable nitrile patent pending foam**  
 The nitrile patent pending foam coating is 20% more breathable than earlier formulations - for cooler, drier hands and less sweat.
- Form-fitting liner**  
 Snug, second-skin tailoring tightens the fit across the palm for added comfort and tactility improving dexterity when moving between tasks.
- Ergonomic fit**  
 Optimized knitting at the base of the pinky finger, across the finger tips and through the palm matches natural hand contours.
- Silicone-free**  
 No transfer of silicone contaminants to metal parts prior to painting.
