

Light Duty

Oil-Repellent

## Ultimate performance for oily environments

- 11-926 is the first light weight HyFlex® style to combine a  $\frac{3}{4}$  dip geometry, oil repellence and oil grip in a single flexible glove
- HyFlex 11-926 features Ansell's proprietary grip technology providing reduced risk of slippage in dynamic environments
- The liner is constructed with fine gauge nylon/spandex yarn providing the user with an unrestricted second skin feel
- This unique blend of protection, performance and flexibility features bridges the gap from previous generations of  $\frac{3}{4}$  dip oil repellent general purpose gloves. Delivering enhanced flexibility, tactility, oil grip and extreme comfort.

### Industries

- Automotive & Auto OEM
- Electrical Machinery
- Machinery & Equipment
- Metal Fabrication
- Transportation Equipment

### Applications

- Assembly of oily components after machining
- Inspection of machined parts
- Load and unload part from production line
- Light part sorting & inspection
- Maintenance

### Performance Profile

- Proprietary coating prevents oil or lubricants from making even incidental contact with the wearer's skin for improved hand health.
- Patented grip feature uses microscopic channels to wick away oil & moisture from the surface of parts or tools, ensuring safe, secure and effective glove contact. reducing risk of slippage.
- The design combines the abrasion resistance of multiple layer coatings ensuring that the fine gauge seamless nylon plaited liner maintains soft feel to the skin across the whole life span of the glove.

### Key Features

- Superior ergonomic hand shape for a more comfortable fit and greater dexterity.
- Added protection against oil exposure and knuckle abrasion.
- High abrasion (EN Level 4) with cut resistance (EN Level 1)
- Deep purple/red hides dirt in oily, grimy and gritty environments.
- Sizes 6-11 ensure optimal dexterity and comfort for each employee.
- Free of natural rubber latex.
