

HS SERIES - VERSION HS 10

Model description, HS 10 (totally encapsulated suit)

- One-piece heat protection suit for use with SCBA worn inside the suit with a suitable backpack
- Adjustable braces for individual adjustment to body size (DBGM No. 9001479.0) with relief for head and neck area
- Hood fits over every helmet (large respiratory protection helmet and DIN helmet)
- Five-finger gloves and overgloves are exchangeable. This glove combination is worn over the sleeve and is covered on the outside with a cuff. This prevents hot materials entering the sleeve or glove.
- Overshoes attached to the suit, with three-layer Kevlar® sole. The attached footwear provides maximum safety in the area of the feet and allows users to wear their own boots inside the suit.
- Easily replaceable triple visor with extremely large field of vision (DBGM No. G 8913474.5)
- Inside pocket for communication devices (e.g. two-way radio)
- The HS 10 protection suits have a rugged zip of about 180 cm length on the right side of the hood, with zip cover.
- Combination: We recommend the use of suitable functional underwear (see Extras)
- Colour: Silver-aluminised
